

Cancer Can Affect Anyone

Statistics Predict:

- Cancer will strike one in every two men and one in every three women in the U.S.*
- One out of eight women will develop breast cancer in her lifetime*.
- One out of every six men will develop prostate cancer*.
- The number of people with cancer will double in this decade**.

Are you prepared for the cost of cancer?

Your medical insurance covers most of the **direct** charges such as hospital and physicians' bills, but **may not cover** these **indirect** costs:

- Loss of wages while caring for a family member
- Loss of wages while you receive treatment
- Everyday living expenses and bills
- Childcare
- Home health care expenses
- Transportation for non-local or specialized treatment centers
- Experimental treatment
- Meals eaten out, fast food for family at home
- Lodging during non-local treatment

In fact, non-medical costs account for **67 percent** of all costs associated with cancer*. Many Americans find themselves financially strapped as the result of the battle against cancer or a specified disease, even with medical insurance.

Extra cash when you need it. Here's how it works:

- We provide **cash benefits** to you.
- You use the money to meet **your needs** - loss of income, house and car payments, transportation for treatment, other bills, etc. These non-medical expenses of cancer may not be covered by your major medical insurance.
